ENGLISH

Your future  
begins  
with us

INUS Australia proudly delivers quality English classes to a wide range of nationalities.

Our programs focus on developing social skills, academic skills and work skills.

We offer customised study programs.

INUS derives its name  
from the Latin words  
"Inspirationem and Anglicus"

At INUS, we pride ourselves on providing an excellent English program for our students.

Our students come from over 20 different countries and we provide first class support for all of them. From the day you arrive, you will feel right at home as all of our staff are warm and friendly.

We know that by choosing INUS, you have chosen the right pathway to success.

We offer specialised study programs for each individual student as each student is unique.

INUS offers a variety of courses to fit individual student needs. The core general English classes are complemented by its IELTS and FCE courses; Barista course and elective classes to help students get more from their regular study.

I teach the C1/EAP class which focuses on Advanced level English and preparation for academic study. I like the freedom I am given to edit course content to suit student needs and interests. INUS is an intimate environment with familiar faces, and it's good to see students who I might talk with at lunchtime, reaching the C1 class from other levels.

#### ***Frits Bovill (C1 Teacher)***

I teach one of the intermediate classes and every day I get to work with students

from all around the world; Thailand, Korea, Japan, Colombia, Spain, and many others. I love having so many different cultures and outlooks represented in my class! My students tend to get along with each other really well in school. They even go out with each other socially which I think is a sign of a strong class dynamic.

It's an exciting time for English language learning in Australia, and I couldn't think of a better school to further your learning than INUS.

5

Qualified and experienced teachers - every teacher at INUS has a recognized degree as well as a teaching qualification.

Why Inus

# Melbourne

There is always  
something to do

Melbourne has a population of 4.25 million and is the second largest city in Australia. It is a great city to live in and international students love the lifestyle that it offers. Melbourne has a reputation for being the most European of all Australian cities. This is because of the abundance of parklands and Victorian-era buildings as well as stunning coffee shops.

Our students feel comfortable here as 38% of the people in Melbourne were born overseas; it is a truly multicultural city with an abundance of cafes and restaurants.

Melbourne is regarded as the cultural capital of Australia and has been described as

**stylish, arty  
and cosmopolitan.**

People love exploring its laneways teeming with coffee shops.

## The Melbourne 'Bucket List' includes

- Visiting the Melbourne Cricket Ground.
- Enjoying a coffee at a café along Lygon Street.
- Walking along the Yarra river.
- Taking in the view from the top of the Eureka Tower.
- Exploring the many laneways that crisscross the Central Business District [CBD].

## At INUS, we have a modern and relevant General English course

It is known as the INUS Customised English Program or ICEP for short. We know that no two students are the same so we offer informal student feedback on a weekly basis as well as discuss formal study plans every 5 weeks. Each student has their own individualised study plan. Our ICEP program mainly focuses on the four macro skills, listening, speaking, reading and writing as we want our students to be proficient with their all-round skills. There is also a strong emphasis on teaching grammar and pronunciation as we regard accuracy to be as important as fluency.

*Inspiration Innovation Integration*

## Facilities

## Claudia Durán Goffard

Spain

My experience at INUS has been very satisfactory. Right now I'm in the Upper Intermediate class and studying to move up to the Advanced level. The classes are 4 hours currently, but they are not hard at all, since they combine the grammar with speaking very well, as well as vocabulary and games... I think of fundamental importance are the teachers, who try to make the classes very dynamic. Another factor is the classmates: it's very enriching to talk to people from all over the world. Not only practicing English constantly, but also learning from other cultures.

## Honami Furuuchi

Japan

INUS is a very international school. My class has students from more than 6 countries. I like to spend my time with my class mates and my teacher, because they are kind and humorous. Our class does not only writing but also discussion every day. It is especially important to improve our speaking skills. Furthermore we have free classes which include studying movies, music, idioms etc. It is interesting, useful and no test!!

## Glen (Tanapat Sarakit)

Thailand

Hello my name is Glen. I am studying at INUS English school because my agency in Thailand recommended it to me. At first, my family and I worried about many things about this school but when I came here everything is true and better than expected. INUS is located in the Melbourne CBD with easy access to everything and has a lot of facilities. INUS has many international friends and teachers. This is good for practicing English with a lot of different accents e.g. Australian, British, American and many friends around the world. I have many international friends and we have a lot of activities by ourselves and with INUS

You will regret if you do not study at INUS!

## Jeongyong Kim (Jeyday)

South Korea

I've been studying at INUS for 8 weeks. English was not a main subject when I was in high school, until coming to INUS. I tried to study at other schools, but INUS is definitely better than other schools. Everything is so nice. Especially, my teacher is from America, they experienced teaching in Korea! They make me feel friendlier. Sometimes, they tell us funny stories about there. Also, I have met so many international friends here. Not only studying, also we hang out together and share our cultures together. I already had such a valuable time. I have improved a lot compared to the first time I was here, but I still want to make the most of it., I believe in INUS. I'm going to get better and better. Thanks.

## Coralie Tellier

France

Since I arrived at INUS my English has improved and it is now easier for me to talk and understand native English speakers. Teachers have a good pedagogy, the program allows you to follow a good progression, and classes are small groups; that is better for a good study environment. Furthermore, the staff are always present if you have a request. Another good point of this school is the free extra classes which are a relaxing and fun way of teaching.
